ASSOCIATE SOFTWARE DEVELOPER

I'm a software developer with over two years of experience, specializing in creating effective and scalable software solutions. My background in various programming languages and frameworks has equipped me to build innovative applications that address complex issues. As a team leader, I made sure our projects were completed on time, oversaw company product installations, and guided new interns. I'm keen to use my skills to contribute to projects that improve user experiences and push technological boundaries forward.

SKILLS

- Project Management: Experienced in managing small to medium-sized projects, ensuring timely delivery, handling change requests, and coordinating resources efficiently.
- Team Leadership: Led teams, taught new interns, and ensured seamless project execution and product installations.
- Customer Coordination: Skilled in communicating with clients and stakeholders to ensure smooth project delivery and customer satisfaction.
- Front-End Development: Proficient in HTML/CSS, JavaScript (React.js), API integration, Bootstrap for responsive design, and web performance optimization.
